LOW PRICED FURNITURE.

We venture the assertion that our prices on what is ordinarily termed "cheap furniture" is from 10 per cent to 50 per cent cheaper than in installment houses give their customers for the doubtful privilege of a well taxed, time payment. A lady told us that she paid \$35 for a chamber suit that we are glad to sell anyone for \$18. There may be criticism of, but there can be no question of the exercise of a person's privilege to buy in that way. The conclusive evidence it presents to a sane mind, however, is that such people have "money to fling at the dogs," or else are, financially speaking, criminally indifferent to their own best interests. We are just as keen to serve those who wish to buy the well-made, lower priced furniture, as those who are able to buy the best. We wish to give to the latter that our low-priced furniture has no taint of inferiority in it; it is the best for the price the market contains. It will be well for those to whom this information partakes of the nature of news to avail themselves of it in the day of need, if they care to save their hard earnings.

THOSE IMPORTED  
THOSE IMPORTED

English Enamelled Iron Bedsteads have, after a tedious waiting, arrived. The use of iron bedsteads as well as brass is almost universal in European countries. Their use is to be commended on strictly sanitary grounds. It is impossible for vermin to find a lodging place on one, thus making an iron bedstead a pure and wholesome bed. For the "girl's room" we have a splendid value in an iron bed, something in the nature of a cot, that can be folded up, if necessary; they are fitted with a permanently attached heavy, woven wire mattress, are just the thing for a small room and are low in price for such an admirable construction.

Prices being for bedsteads, 3 foot wide, \$5 and \$7. Handsome, Enamelled Iron Bedsteads, with brass decorations, are worth from \$15 to \$25 each. Brass Bedsteads, prize beauties, worthy to grace the boudoir of an empress, the apex and acme of elegance, for \$125, well worth \$200.

THE WOMAN  
THE WOMAN

Who can afford to own and who will not look at our new line of Cheffoniers, those indispensable appurtenances of the modern home, is surely insensible to "beauty made more beautiful" in wood by the cunning artifice of the master workman. Such a display we never heretofore even attempted as we now show on our floors. Despite the attractive qualities of the Cheffoniers, the prices are absurdly low. In polished oak from \$10 to \$50 each.

OUR EFFORTS  
OUR EFFORTS

To irradiate Topeka homes with some of the best products of American furniture, are meeting with the measure of success and appreciation that naturally spur us on to renewed endeavor. One of the many results of our customers' continuous approbation is seen in the line of willow or rather reed and rattan rockers, chairs, reception chairs, tables and work baskets, all of them distinctively representative of the latest styles. To get the good new styles, that are the prevalent mode in the cities, are willingly pay the prices, rightly believing our ladies entitled to the pick of the markets' best goods.

SIDEROARDS  
SIDEROARDS

From the standpoint of attractiveness our line of Siderboards is a decided success. It is a pleasure and satisfaction to view them on our floors. How much greater pleasure would they inspire on the floor of your dining room! Carved effects and high polish are the pronounced features on some low priced Siderboards. From \$17 to \$30 each.

## RECKLESS TRAMPERS

Throw Stones at a Santa Fe Passenger Train.

## ONE OF THE TRAMPS IS SHOT.

A Brakeman Badly Hurt—Other Railroad News of General Interest.

At 5 o'clock this morning twelve tramps tried to capture the first section of Santa Fe freight train No. 37 at Hardin, Mo., the first station this side of Lexington Junction. The train crew held their own and a free fight ensued, in which Conductor Fleckenstein shot one of the tramps and Brakeman Blume was badly bruised.

Further than this no information had been received at the Santa Fe general offices here. Claim Agent C. M. Foulks received the following telegram today from Superintendent C. F. Ressegue of the Chicago division: "About 5 o'clock this morning at Hardin about twelve or fifteen tramps tried to run first 37 and Conductor Fleckenstein had trouble in keeping them off the train. They threw stones at the train and threatened to shoot. The conductor fired several shots, one of which took effect in the leg of one of the tramps. Some doctor at Hardin bandaged the leg up a little and some other person paid his fare to Lexington Junction. Many of the tramps got on a stock car on second 37 and are now at Floyd. I understand the wounded men are in pretty bad shape. I also understand Brakeman Blume received a bad cut over the eye by being hit by stones thrown by tramps on first 35 last night. Have notified authorities and turned wounded men over to them."

Claim Agent Foulks thinks the tramps in question must be a part of some "army," probably Kelly's. Reports of a less serious nature are frequent, and it is proposed to prosecute as many of them in today's scrape as possible for assault.

## ALL ALONG THE LINES.

Railroad News Items Interesting to Railroaders and the Public.

The Rock Island well diggers at Dwight have struck water at thirty-two feet.

Santa Fe Engineer O. W. Bates, who was married last week to Miss Edna Heckard of Lyndon, has arrived in Topeka with his bride and gone to house-keeping. Mr. Bates is one of the most popular boys of the Santa Fe family and his bride is a charming lady.

Fred Lyman and P. E. Cook returned from St. Joseph yesterday where they had been to see what the management of the Lake Country park would do towards inducing the Santa Fe shops excursion to go there in June. They will make a favorable report at the meeting at Trades Assembly hall Saturday afternoon and it is quite probable that the excursion will go to St. Joseph.

The Capital City of the Santa Fe will play the first game in their new suits at Vinewood park next Sunday afternoon. The suits are black, trimmed in white, and the boys are very proud of them.

The Santa Fe boys want to know why Warren Zooler didn't pay a little more and get an umbrella instead of that hat. The railroad people say that Colorado's crop this year will be fifty per cent more than it was last year.

It is now said that "Piccolilly" Jack Kelly will not get the Scranton coal run on the Santa Fe, but that Engineer Andy Verlin will get it.

Assistant General Manager W. I. Allen of the Rock Island was in the city yesterday all day, but has returned to Chicago.

A good many of the Santa Fe shop boys went on the June excursion to go to Webb City.

The change made in the working time of the Santa Fe shops last week extends to the shops at Argentine.

## THE RAINMAKERS.

They Are at Work at Channing, Texas, and at Phillipsburg, Kan.

The companies of the Rock Island rainmakers are already at work. C. B. Jewell is at Channing, Texas, and while it is a hard country to work in because it is so dry, he is getting very good results and had a fair rain yesterday.

The other outfit is at work at Phillipsburg, this state, and is under the direction of Harry Hudson. Hudson was compelled to suspend operations yesterday because of a sand storm, but is now at work again and expected a good rain today.

## MR. FREY AT ATCHISON.

The Santa Fe Track Men Have Moved Away From the Bank.

General Manager J. J. Frey is in Atchison today, conferring with officers of the Rock Island, Hannibal & St. Joe, and other roads, on the subject of the encroachment of the Missouri river at that and other adjacent points. The gradual but certain washing away of the banks places the tracks of each of the roads in danger, although the danger is not looked upon as immediate. Mr. Frey proposes to look over the ground carefully and determine what needs to be done, and do it—or at least his share of it.

"The Marble Arch," "The Marble Arch," written by Edward P. Roe, will be given at Library Hall tomorrow evening, (Friday, May 18th).

## IT WAS A. W. SMITH

Who Brought Col. Needham, the Eastern Calamity Howler, to Kansas.

The speech made before the state board of agriculture last January by Col. Daniel Needham of Boston is to be used by the Populists of Kansas as campaign thunder this summer.

This speech, which was printed in the annual report of the secretary of the board of agriculture, has been discovered to be the best campaign literature available and State Printer Snow, who made the discovery, has had the entire speech reprinted in his paper, the Ottawa Journal. Ten thousand copies of the speech are to be printed for distribution over the state by the state central committee.

Col. Needham, who is a Massachusetts Republican, in discussing the financial legislation of the present congress, pleased the Kansas Populists and, in reviewing the conditions for the past two years, said:

"A good watchword for America is, 'No dictation in finance or civil policy from the ancient aristocracies which we have outgrown.' Leaving the government and coming directly to the people, a solution of present business conditions might be found in the departure of our people from the simplicity of the fathers. As evidence of this I could cite columns of our daily papers, which are filled with embellishments by men of high business and social position; the daily suicide of educated and cultivated men, the sequel of whose death, by their own record, is chargeable to extravagant habits and wasteful expenditures; the 50 per cent more bankruptcy this year recorded by the commercial agencies of the country over those of last year; the corporations as well as individuals that have found their way by hundreds into the hands of receivers, which has made the outlook at times appear to threaten almost universal bankruptcy. The horoscope of the politician discovered that the production and use of American silver in the currency of the country was the cause of this calamity."

State Printer Snow corrects one portion of the speech printed in the agricultural report, and says that Col. Needham did not refer to a "certain" railroad but said plainly:

"The Atchison, Topeka & Santa Fe railway company has lately gone into the hands of receivers; in other words, it has failed to pay its debts, because it could not earn money enough to meet its fixed charges, and why? It has a capital stock of \$101,492,700, divided into 1,014,927 shares, representing \$100 each. This vast sum it owes to its stockholders. It owes, on a first mortgage, a little more than one hundred million dollars; on a second mortgage eighty million dollars; and on a third mortgage eighty million dollars. It stands responsible for thirty-seven million dollars of other indebtedness, including a floating debt of seven million dollars. A grand total of 355½ million dollars debt."

It is now learned that no less prominent a Republican politician, Farmer A. W. Smith, once a candidate for governor, was responsible for Col. Needham, the calamity howler of New England, being invited to address the Kansas agricultural society.

Ex-Secretary Mohler, of the board of agriculture, rises in haste, to say that he was not responsible for Needham's being on the programme, but that Farmer Smith did the mischief.

## THERE WAS A CUT.

The Police Commissioners Reduce Expenses of the Police Force.

The police commissioners met last night with all the members, Mr. Whiting, Mr. Yount and Mr. Kraus, present. As announced in the JOURNAL last evening, the commissioners decided to respect the demands of the city council and exercise a little judicious retrenchment in that department. Accordingly five special policemen were relieved from future service. They are James McGinnis, Ben Perkins, William Holloway, E. A. Collum and S. Watt. This leaves that large portion of the city west of Kansas avenue and from the Kansas river to Wakarusa in which many of the heaviest taxpayers live with absolutely no police protection.

Councilman S. B. Bradford was present to urge this measure of economy and the commissioners took occasion to suggest that the council could do a little retrenchment themselves by cutting off the five sanitary officers "appointed by the mayor with no vestige of authority."

They said that Sanitary Sergeant Hudson's sanitary force was the only constitutional and legally organized force, and they were willing to do all the work now done by Dr. Hibben's force without extra expense to the city. Mr. Bradford of course did not have the authority to consent to this even had he been disposed to do so.

Alexander Mallory was appointed a special policeman without pay to guard the Shiloh Colored Baptist church at Twelfth and Buchanan streets. This was in response to a petition signed by the pastor and six deacons, who represented that they were greatly annoyed by boys and hoodlums who disturb their services.

THE BICYCLE NUISANCE.

A Fast Riding Renegade Responsible for Mr. Thompson Being Laid Up.

Eli Thompson of 1036 Lawrence street is able to be about after being confined to his bed about ten days as the result of an accident that occurred near the corner of Seventh street and Kansas avenue.

Mr. Thompson is 63 years of age and he was crossing the street when he was run into from behind by a young member of the best over bicycling fraternity. The young man was going at a high rate of speed, entirely too fast for public safety. The cyclist has been "laid low" since to prevent his arrest. Mr. Thompson is the father of Mrs. L. E. Thorpe, the police matron.

## LOCAL MENTION.

The case of the city of Salina against the Atchison, Topeka & Santa Fe, Missouri Pacific, Rock Island and Union Pacific railways for a lower rate on coal came up before the railroad commissioners this morning and on the application of the city was postponed to June 5 at 9 a. m.

The Kansas summer bible school will be in session at Forest Park, Ottawa, June 11-18. Several young men from this city will attend. Forest Park is where the Chautauqua assembly meets.

E. B. Welch is in Osborn county on legal business.

Gov. Lowell has appointed Joseph C. Braman commissioner of deeds for Kansas in New York City.
